- 2. Answer all questions and attach additional sheets where necessary. If the information cannot be provided, briefly explain why.
- 3. Explain unusual entries and discrepancies on pages containing space for remarks or referenced supplemental pages.
- 4. If the space provided is insufficient, insert and number additional pages. You may use photocopies or computer-generated pages. For example, if you need to add pages to report your pipeline miles on page 14, number the pages 14A, 14B, 14C, etc.
- 5. Please submit any additional information that may affect the valuation of the property.
- 6. If requested information has already been created, you may substitute copies of that information.
- 7. If you do not select an option for removing intangible personal property (page 4), Option A will become the default method. For example, investments in custom software are exempted as intangible personal property. Custom software is defined as
  - ... software designed, and created by a vendor at the specific request of a client. The term includes services separately charged to modify existing canned software, even though the canned program remains taxable. Custom software does not include loading parameters to initialize program settings and arranging preprogrammed modules to form a complete program.
- 8. Include the following additional reports: the annual report to partners and stockholders, operating and financial year-end company report, and Federal Energy Regulatory Commission Form No. 2.
- 9. Please provide the five-year projections on page 7.
